

SESSION-12:

Tasks

1.

Declare a structure named Playlist to store details of a song: title (string), artist (string), and duration in seconds (integer). Initialize one Playlist variable with your favorite song's details and print each field.

```
#include <stdio.h>

#include <string.h>

struct Playlist {
    char title[100];
    char artist[100];
    int duration;
};

int main() {
    struct Playlist song = {
        "Tum Hi Ho",
        "Arijit Singh",
        262
    };

    printf("Song Title: %s\n", song.title);
    printf("Artist: %s\n", song.artist);
    printf("Duration: %d seconds\n", song.duration);
    return 0;
}
```

```
PS C:\Users\SIDDHI\OneDrive\Desktop\C_Assignment> gcc task1_playlist.c -o task1_playlist
PS C:\Users\SIDDHI\OneDrive\Desktop\C_Assignment> .\task1_playlist.exe
Song Title: Tum Hi Ho
Artist: Arijit Singh
Duration: 262 seconds
```

2.

Create a structure called FoodItem to store Zomato-style menu data: itemName (string), price (float), and rating (float). Initialize an array of 3 FoodItem variables with real menu items and display their details using a loop.

```
#include <stdio.h>
```

```
struct FoodItem {
```

```
    char itemName[100];
```

```
    float price;
```

```
    float rating;
```

```
};
```

```
int main() {
```

```
    struct FoodItem menu[3] = {
```

```
        {"Chicken Biryani", 250.00, 4.5},
```

```
        {"Paneer Butter Masala", 220.00, 4.3},
```

```
        {"Masala Dosa", 120.00, 4.6}
```

```
    };
```

```
    for (int i = 0; i < 3; i++) {
```

```
        printf("Item: %s\n", menu[i].itemName);
```

```
        printf("Price: Rs. %.2f\n", menu[i].price);
```

```
        printf("Rating: %.1f\n\n", menu[i].rating);
```

```
    }
```

```
    return 0;
```

```
}
```

```
PS C:\Users\SIDDHI\OneDrive\Desktop\C_Assignment> gcc task2_food.c -o task2_food
PS C:\Users\SIDDHI\OneDrive\Desktop\C_Assignment> .\task2_food.exe
Item: Chicken Biryani
Price: Rs. 250.00
Rating: 4.5

Item: Paneer Butter Masala
Price: Rs. 220.00
Rating: 4.3

Item: Masala Dosa
Price: Rs. 120.00
Rating: 4.6
```

3.

Define a nested structure called MovieShow for a BookMyShow-style app: Movie (string), Screen (integer), and a nested structure Time with hours and minutes (integers). Create and initialize a MovieShow variable for any movie and print its details in the format 'Movie: X, Screen: Y, Time: HH:MM'.

```
#include <stdio.h>
```

```
struct MovieShow {
```

```
    char movie[100];
```

```
    int screen;
```

```
    struct Time {
```

```
        int hours;
```

```
        int minutes;
```

```
    } time;
```

```
};
```

```
int main() {
```

```
    struct MovieShow show = {
```

```
        "Dhurandhar",
```

```
        2,
```

```
        {7, 30}
```

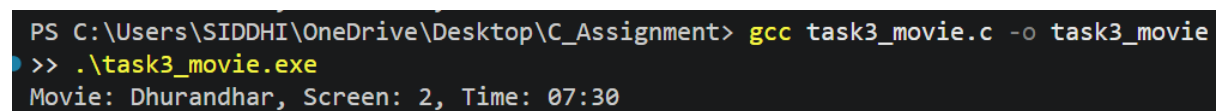

```
    };
```

```
    printf("Movie: %s, Screen: %d, Time: %02d:%02d\n",
```

```

        show.movie,
        show.screen,
        show.time.hours,
        show.time.minutes);
return 0;
}

```

```

PS C:\Users\SIDDHI\OneDrive\Desktop\C_Assignment> gcc task3_movie.c -o task3_movie
>> .\task3_movie.exe
Movie: Dhurandhar, Screen: 2, Time: 07:30

```

4.

Build a structure called InstaProfile with fields: username (string), followers (integer), and a nested structure Bio with fields: description (string) and age (integer). Initialize an InstaProfile variable with your own details and display all fields.

```

#include <stdio.h>

struct InstaProfile {
    char username[100];
    int followers;
    struct Bio {
        char description[200];
        int age;
    } bio;
};

int main() {
    struct InstaProfile profile = {
        "siddhi_123",
        5000,
        {"Student and music lover", 22}
    };
}

```

```
};  
printf("Username: %s\n", profile.username);  
printf("Followers: %d\n", profile.followers);  
printf("Bio: %s\n", profile.bio.description);  
printf("Age: %d\n", profile.bio.age);  
return 0;  
}
```

```
PS C:\Users\SIDDHI\OneDrive\Desktop\C_Assignment> gcc task4_instaprofile.c -o task4_instaprofile  
PS C:\Users\SIDDHI\OneDrive\Desktop\C_Assignment> .\task4_instaprofile.exe  
Username: siddhi_123  
Followers: 5000  
Bio: Student and music lover  
Age: 22
```
